Not long since, a young man supposed to posses good principles, but no fortune of-fered his hand and heart to a fair young lady with song little fortune of \$50,000— The offer was fully considered, and finally refused, on the ground that the young man showed too many years above the young lady; though he was really but twenty-six. Yet his tine side whiskers and hair were tinged with an awful sprinkling of hoary white and gray, and fairly indicated a round score more of years than he had really seen. To the young man the refusal came like a frosty blanket in a cold night What was to be done? What could be done? True, his head came out from under his "Fair" white as a coon after a snow storm-but must this divide them.

At once he left the city. Time passed on and the young lady received another offer No objection to the fine and beautiful lover could be found. His head was PERFECT, and his raven locks had a most bewitching Due time was taken and the other accepted; the day fixed; every desired preparation made; the minister notified, and the thing done. Three balmy days passed away, when the loving young husband threw his gentle arms around his better half by \$50 000, and said, "Darling, what do you think of my white hnirs now?" The startled and astonished bride with uplifted hands, exclaimed, "Ros coe R-, is it possible? Am 1 deceived! Tell me quickly!!" LUNG BALSAM, FOR THE CURE OF

Consumption, Bronchitis, A DALL DISEASES THAT LEAD TO IT Such as Coughs, Neglected Colds, Pain in the Chest, and all diseases of the Lungs. Clergymen should use the Balsam for their Throats.

THIS Balsamis introduced to the auffering public latter its merits for positive cure of such diseases have been fully tested. The formula from which it is prepared is referred to by the leading medical journals as being equal to any prescription that can be made up, for such diseases, by the medical faculty. The Balsam is consequently, recommended by physicians who have become acquainted with its great As an Expectorant it has no Equal material, and by the most experienced workmen.

We copy the following interesting letter from Dr.
Harris to the Middlebury, Vt., Register, Nov. 29, '65.
Ms. Entron:—It is only to subserve the interests of humanity that I request a short space in your valuable paper to inform the public what Allen's Lung Balsam is sure to do. Two years ago I was attacked with a severe cold; it settled in my throat, which so affected the organs of speech that I could not speak aloud for nearly sta weeks. I got through the winter coughing nights almost incessantly, with celd night sweats, with increased irritation, which extended into the Bronchial tubes and which kept me coughing all summer. I was at Shoreham on a professional visit the past October, when the "good Samaritan" came along introducing Allen's Lung Balsaminto New England. I procured a bottle and took it according to directions, and found immediate relief. I have now taken two bottles, which has entirely cured me. For the past two years, or during the time of my affliction, I was in a state of constipation, which the Balsam has almost effectually regulated. No tamily should be without this valuable medicine. I see by the Western papers that the physicians of Cincinnati (where the medicine is manufactured) are introducing it into their practice, and I have no doubt it will soon become a classical remedial agent for the cure of all diseases of the throat, Bronchiai tubes, and the lungs.

NATH'L HARRIS, M. D., Dentist,
Middlebury, Vt., Nov. 16, 1886.

The proprietors of this valuable Balsam take pleature in calling to it the attention of all medicine dealers, desiring that they procure a supply of it, and recommend it to their afflicted patrons and friends. It will stand the test for merits, as has the celebrated

Perry Davis' Pain Killer, which has been introduced to all parts of the inhab-ited world, and is everywhere appreciated and sought after. The Balsamis for sale by most of the leading Drugeists, and can always be had from them, in any antity desired, by the country dealers.
